Re: Monsanto - Queeny Plant

Dear David:

Following our conference call of today, enclosed please find Ken Perica's memo to the file concerning telephone conversations he had with you on September 2, 1986 concerning the approval of modifications to the Queeny Plant's Part A application for dioxin treatment and storage.

This will also confirm our follow-up call scheduled for Thursday, April 20, 1989 at 9 a.m.

Sincerely yours,

Maxine I. Lipeles

DATE : September 5, 1986
SUBJECT : RCRA - PART A MODIFICATION, DIOXIN
REFERENCE :

R. F. Boland - E-11
M. R. Foresman - B3NA
R. T. Allen - G3WB
T. R. Alvarez - B-5

TO : File

After many weeks of discussions with ERA Region VII personnel, the Queeny Plant RCRA Part A application has been modified to accommodate dioxin waste storage and treatment. Therefore, the plant can proceed with the "ZZ" Building clean-up as planned.

There had been considerable reluctance on the part of the EPA to move on this request, primarily because it involved dioxin. As a result, numerous departments within the EPA became involved which delayed the entire review process. At one time they were insisting on a consent order; however, upon our continued questioning, the consent order was dropped.

I received verbal authorization on September 2, 1986, that the Part A was modified and all project work could now proceed. Mr. Dave Doyle, Permits/Enforcement Manager, and Mr. Mark Reavis were the primary contacts on this issue. Mr. Doyle reports to Mr. David Waggoner, RCRA/Air Director and Mr. Waggoner reports to Morris Kay, Regional Administrator. Doyle and Reavis both mentioned that a written response from them was not necessary.

K. M. Perica
